Perfect Health

It comes only with continuous care of the body. In hot weather when the insects bite and sting; when the odors of perspiration are most disagreeable; when hives and chafing annoy and distress, and when the feet ache and feel tired—you need a strong antiseptic—that will cleanse; soothe the irritations and counteracting the poisonous infections.

Use Tyree's Antiseptic Powder  
Because it is most effective and devoid of all danger

Tyree's Antiseptic Powder is safe in anybody's hands. As a sanitary wash and alleviating agent it has more potency to health than bichloride of mercury tablets, carbolic acid, sulphate of zinc—but they are deadly poisons—with unpleasant odors, sticky, gummy, and discoloring. Tyree's Antiseptic Powder is sweet and clean—invigorating in the bath; healing and soothing in the douche, and absolutely harmless. Indorsed by all physicians.

Resinol stops skin torments

How This Wonderful Ointment Ends Itching and Heals Skin Eruptions.

THE soothing, healing medication in Resinol Ointment and Resinol Soap penetrates the tiny pores of the skin, clears them of impurities, and stops itching instantly. Resinol speedily heals eczema, rashes, ringworm, and other eruptions, and clears away disfiguring pimples and blackheads, when other treatments prove worse than useless.

Resinol is not an experiment. It is a doctor's prescription which proved so wonderfully successful for skin troubles that it has been used by other doctors all over the country for nineteen years. No other treatment for the skin now before the public can show such a record of professional approval. Every druggist sells Resinol Ointment (50c and \$1), and Resinol Soap (25c). But for trial, free, write to Dept. 33-R, Resinol, Baltimore, Md.

McADOO'S PLAN APPROVED.

Business Men's Committee Favors Loans on Warehouse Receipts.

Approval of Secretary McAdoo's plan to accept as a basis for currency notes secured by warehouse receipts for cotton, tobacco and naval stores at 75 per cent of their face value, is given in the report of the special committee appointed by the conference of representative planters, bankers, manufacturers and dealers held here August 24-25.

The committee recommended that every effort be made to assist producers in holding their cotton for a price that will minimize their losses until the channels of foreign trade are reopened. Eight cents a pound was suggested as a fair basis for loans on cotton.

## RETRENCHMENT PLANNED BY WATER DEPARTMENT

Income Last Year Fell \$50,000 Below Estimates, Leaving Only \$900 Balance.

This is to be a lean year with the District water department. No extensive improvements of any character are contemplated, and only necessary extensions of mains will be ordered.

The department's income last year from rents, assessments and other sources fell \$50,000 below the amount estimated, leaving a balance after all expenses had been met of only \$900. It has been found necessary to adopt a policy of retrenchment during the present fiscal twelve months in order to swell this balance to the point where it will be possible to undertake some big improvements next season.

New Pump to Cost \$100,000.

The principal improvement planned is the installation of a new pump for the third high service at a cost of approximately \$100,000.

Last year the department installed 10,000 meters, which resulted in considerably reducing its income from water rents. Statistics compiled show that returns on the meter accounts averaged about \$1.60 less per year than those for the flat-rate service.

In addition to the extensive meter installations, other improvements undertaken last year which cut in on the department's reserve fund were the building of the Anacostia pumping station, water works at Hope, Congress Heights and Randle Highlands, and installation of two electric cranes in the storage yards.

This year only 5,000 meters will be installed. The estimated amount of the department's income, \$750,000, or \$40,000 less than the amount estimated for last year.

Discriminated Against, NEW ORLEANS CHARGES

Files Complaint Against Thirty Railroads in Cotton Rates With I. C. C.

Discrimination against New Orleans in favor of other ports is charged in fixing rates on cotton in a complaint filed yesterday with the Interstate Commerce commission by the New Orleans cotton exchange. The commission is asked to meet in New Orleans at an early date to investigate the charge.

Discrimination is accomplished, the complaint sets out, through the failure of the carriers to publish through rates to New Orleans from local cotton producing points in their lines, although such rates to Mobile, Pensacola, Wilmington, Norfolk, Baltimore, Philadelphia, New York and Boston are offered.

The result is that the rate to New Orleans from any local point now is made up of a local rate to a junction point plus the rate from that junction to destination. This combination is alleged to create a rate discrimination in favor of the other shipping points named.

It is charged also that the phrase "unfavorable to the carrier" is used in "expressing" shown in published cotton rates gives opening for further discrimination. The working is indefinite, the complaint avers, and permits the carriers to absorb compressing charges or assess them against shippers at will. The complaint asks that the phrase "unfavorable to the carrier" be substituted.

A small number of French models were shown at a New York store the past week, designed by several of the greatest dress artists just before they left for the war. They are generally described as more simple and wearable than of late years. The skirts were all short and several models quite wide. Black velvet dinner dresses had crystal and jet trimmings. Another black velvet had waist partly made of black net over pink satin. A black beaded net showed a draped Watteau pleat and gold lace sleeves. A silver cloth was made of three tiers on the skirt. A young girl's dress of robin blue had a V-shaped neck, edged with fitch fur and rosebuds, the same trimming banding the skirt at the hem.

## SEND CHECK FOR \$500 TO AID THE RED CROSS

Fritz Achelis Contributes to German Sufferers—Plans for Relief Ship.

The Star will receive, acknowledge and transmit to the American Red Cross contributions from the public toward the work to be undertaken by that organization in connection with the war abroad.

A contribution from a German-American to be used on behalf of the German sufferers in the great war now raging abroad was received this morning at the headquarters of the American National Red Cross in this city. Fritz Achelis of New York city sent the Red Cross his personal check for \$500 for the purpose stated and aid the coming work of that organization.

Ship to Be Named Red Cross.

It is hoped that the expedition which will bear physicians and nurses from America on a Red Cross ship will be able to start by the latter part of next week from New York. The ship is to be named not only in appearance, but even in name, and will bear the title "Red Cross." The committee negotiating for a suitable vessel prefers an American ship as being more easily able to enter various foreign waters.

One of the most interesting letters received at American Red Cross headquarters since the campaign for funds with which to finance a relief expedition to Europe was started, was from a young woman who is employed in the household of a former United States senator. She is one of the annual members of the American Red Cross, and upon receiving the general appeal for European funds sent out by Red Cross headquarters she began soliciting contributions in the household. The smallest contribution she procured was ten cents and the largest was \$100. She sent out a few of the contributions, not overlooking the sailors on the yacht of her father.

Tells of Small Contributions.

She writes: "All of them wanted their money to be sent to France and Belgium. Two little girl friends of mine, five and eight years old, who heard me telling their mother about what I was doing for the Red Cross, gave me 5 cents and 10 cents. I wish I could do more. I have a brother and cousin fighting in France, and if they must be wounded, I hope the Red Cross will take care of them, as I know they would be well taken care of."

An offer to contribute all the tea and coffee needed for the expedition has come from Abram Wakeman, secretary of the Lower Wall Street Y. M. C. A., who has been gratefully accepted by the Red Cross. According to Mr. Wakeman his organization has been sending tea and coffee to American sailors during the Spanish war.

SUFFERING IN SWITZERLAND.

Legation Here Is Authorized to Raise Relief Fund.

President Hoffmann of the Swiss confederation cable to the Swiss legation in this city, authorizing it to raise a relief fund for the population of the republic and authorizing the legation to raise a relief fund in America.

"Through the complete mobilization of the Swiss army, with every available man between twenty and forty-two years under arms, a state of emergency has been declared, and thousands of families are deprived of their supporters. The maintenance of any army numbering 300,000 men involves a daily expenditure of 1,000,000 francs or of 45,000,000 francs per month. Already the heavy hand of want for means of existence is making itself felt, and this may be followed by a complete stoppage of business, resulting in the loss of millions of the nation's wealth."

"Realizing that help is needed for the many families suffering from the existing unhappy conditions, the Swiss in the United States made the noble offer to raise a fund toward their relief. Committees of prominent Swiss are being organized in every city under the auspices of the Swiss legation in Washington and the various Swiss consuls in this country."

STANDARD OIL PROTESTS.

Objects to Proposed Inquiry by Special Senate Committee.

James K. Jones, attorney for the Standard Oil Company, has sent a letter to the Senate committee on contingent expenses directed against the resolution recently introduced by Senator Chilton of West Virginia, which would authorize a special committee to investigate allegations that the Standard Oil Company through control of pipelines was restricting the flow and curtailment of purchases.

Mr. Jones pointed out that at present the Standard Oil Company is not permitted to make full operations impossible. As to alleged restraint of trade by restricting the flow and curtailment of purchases, he said, he had conducted a rigid investigation, and he was unable to find any action as yet on the Chilton resolution.

Personal to River Men.

Capt. W. J. Howard, master of the schooner W. W. Hackett, unloading lumber at this city, has gone to Baltimore to spend a few days while his schooner is unloading.

A. L. Clarke & Son has returned from a business trip to Richmond and other points in Virginia, and yesterday was at his office on the 10th street wharf.

Mrs. Davis, wife of Capt. L. C. Davis, master of the schooner Regina Francis, died at her home in St. Marys county, Md., Thursday. Efforts are being made to locate Capt. Davis, who is aboard the schooner bound to a bay point.

Mrs. Conaway, wife of Capt. George Conaway of the schooner Mahala, and Ruth, has joined the vessel at Newbern, N. C., for a trip to this city and return to Newbern.

Capt. Hammie Kendrick has resigned as master of the yacht Courier, belonging to R. L. Galt, and will take up other work. His successor on the yacht has not yet been appointed.

Dr. Oiler Urges Typhoid Vaccination.

LONDON, August 29, 5:05 a.m.—Dr. William Oiler sends a letter to the Times urging the emphatic necessity of enforcing compulsory typhoid vaccination in the British army. He says that in war the microbes kill more than the bullet, and adds that the experience of the American army shows the remarkable value of typhoid vaccination.

Orphans Are Theater Guests.

Children of the Washington City Orphan Asylum were guests at the Orphan Theater yesterday afternoon at 3:00 p.m. They were accompanied by the matron of the institution and her assistants. Especially delightful to the children were the pictures of the "zoo" at Paris, various comic reels and films showing scenes in the Yellowstone Park.

## "LEAGUE AGAINST GIANTS."

That's the Way McGraw Figures Battle for the Pennant.

CHICAGO, Ill., August 29.—"It's the league against New York," I feel like the kaiser," said McGraw last night. The Giant pilot had nothing else to do than to register a kick. The Cub-Giant combat was postponed on account of rain.

"We are not going to win in a walk. Perhaps we may not win at all, but my point is that every club in the league is sending its men to night school to figure out ways and means to pull us off the top perch," McGraw added.

"Guess we have led the league for so long that fans everywhere are pulling for the under dog to win out. It may be mistaken, but I think the Giants can surprise these same fans, and I am not overlooking the steady galls of the other contenders."

"I really believe that next week will mark the beginning of our rapid advance toward the pennant. St. Louis has been gaining steadily and must be watched. The Braves have been going at it furiously. In the meantime my men have sort of loafed on the job. They were too firmly convinced that they could beat out the field in a walk. Naturally they went a bit stale, and with two clubs right on their heels and threatening to assume the lead, the men are going out to play ball as though they meant business."
